

Based on the evidence and your system’s objectives for family engagement: 1) Select one or more related goals to meet your system’s objective and 2) For each goal select two or more Vital Behaviors to assist you in reaching the goal and objective.

Evidence Statements: *When teachers reach out to parents, students make more progress in both reading and math, researchers studying schools in low-income neighborhoods found student performance improved 40 to 50 percent faster if teachers did these three things: 1. Met face-to-face with each family at the beginning of the year to build relationships 2. Sent families materials each week on ways to help their children at home 3. Telephoned parents routinely with news about how their children were doing, not just if there were problems.
